

# ArcSoft Print Creations®

A family of fun and easy print-project software that brings out the creativity in you

Print Creations brings together ArcSoft's latest printing applications into one great user experience. Starting from the Print Creations Launch Pad, you can access any of ArcSoft's great new printing applications including: Greeting Card, Photo Calendar, Album Page, and more. Projects can be printed at home or saved as image files for sharing with family and friends by email or the web. Each unique print-project software comes packed with a full set of professionally designed templates and layouts for all occasions and in all kinds of styles. You can personalize the designs with your own digital pictures and text.

## Greeting Cards

Create, print, and fold your own personalized greeting cards. The program comes loaded with designs for just about every occasion and tools for adding your own photos and text.

- Hundreds of professionally-designed templates for all occasions
- Create half-fold and quarter-fold cards – both styles supported
- Personalize your greeting cards with pictures and text
- Works with the color printer you already own
- Supports borderless printing (not all printers have this feature)
- Works with greeting card papers from all the popular brands
- Built-in print wizard helps you print double-sided cards (inside & out)
- Download more templates from printcreations.com directly from the program

## Greeting Cards

Print great-looking, fully personalized slimline cards to mail to family and friends. Choose from dozens of professionally-designed slimline cards for all occasions.

- Add your own digital pictures and text
- Edit photos by adjusting brightness, contrast, saturation, and more
- Print at home or online, then mail to family and friends
- New print feature to print two 4X8 or letter size paper
- Slimline cards for all occasions, including holiday collections for Christmas and Hanukkah

## Photo Book

Create and print a complete photo book. Celebrate the special events and people in your life by creating a one-of-a-kind photo featuring multiple pages of your own digital pictures and text.

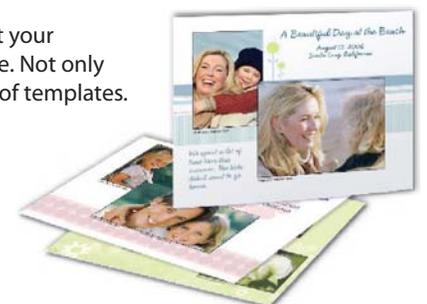

- Professionally-designed photo book templates
- "Auto Fill": Fill the whole book with your pictures with a single click
- Edit photos by adjusting brightness, contrast, saturation, and more
- Share your photo books as flash files with friends and family
- View a full screen preview including an animated page-turning effect
- Add captions to each picture to tell the story of your special event or memory
- Easily order your book directly within the application without having to wait for pictures to upload first

## Album Page

Create your personal album page. Allows you to conveniently lay out your photos in pre-designed templates and output as a single album page. Not only can you add captions to the photos, but also choose from hundreds of templates.

- Choose your design and layout from a collection of professionally-designed album page templates
- Personalize your album pages with your own pictures, titles, captions, and descriptive text
- Edit photos by adjusting brightness, contrast, saturation, and more
- Works with all popular brands of paper

## Photo Calendars

Create and print your own personalized photo calendars or mini album books. Just add your pictures and important dates (birthdays, anniversaries) and in just seconds, you've got a great-looking calendar for sharing with family and friends.

- Professionally designed photo calendar templates
- Create flip-style and single-sided calendars - both styles included
- Download feature built in: get new photo calendar templates for free
- Personalize your calendar with pictures and your own important dates
- Supports holidays from many countries around the world

## Scrapbook

Create and print great-looking scrapbook pages by combining ordinary digital pictures and text with clip art, embellishments, frames, patterns, and more on customizable, professionally designed page templates.

- Includes designed clip art, backgrounds, frames, edges, and many other design elements, arranged by theme
- Powerful control for layout, including multiple selections, align and layer control, and transparent effect
- Simply add photos to the pre-designed templates, or by assembling everything from scratch

## Brochures and Flyers

ArcSoft Print Creations Brochures and Flyers provides the templates; all you need to do is to modify the designs by replacing key areas with your own photos, logos, and text.

- Font size can be assigned and changed
- Multiple selection and alignment make things easier
- Convenient to fold with printed-out folding marks. Real WYSIWYG
- Lots of pre-designed templates available: including single page, horizontal/vertical half-fold, and horizontal tri-fold

## Signs and Posters

The program comes with a library of professionally designed poster templates made to be customized with your own photos and text along with a full set of photo enhancement tools to ensure your big image looks stunning on any wall.

- Font size can be assigned and changed
- Multiple selection and alignment make things easier

## Funhouse

All new and improved Funhouse allows you to morph your face into others to create fun new facial images. You can put your face on a magazine cover or use another picture or scene. Take your imagination to the next level!

- Advanced Face Detection technology allows automatic matching of your face to the template
- Capture photos from a web camera and use as templates (hundreds available)
- Supports Windows Vista and MAC OS
- Use the Print Wizard to print out creations on regular or specialty paper of any size

## Photo Prints

Print your favorite digital snapshots in gorgeous color prints in all standard sizes – perfect for framing, scrapbooking, or sharing with family and friends.

- Prints in all standard sizes
- Multiple page layouts
- Edit photos before you print by adjusting brightness, contrast, saturation, and more
- Advanced color management – use custom ICC profiles so that your printed photos look just like real life
